From I-4, take Exit 129 onto U.S. 92 (International Speedway Blvd.) proceed east approximately 4 miles just past Daytona International Speedway, on the right.

NOTE:

If you took a state approved, 30-hour, laser training course between June 1, 2008 – May 31, 2010, those 30 hours will count towards your state renewal requirements of 20 hours.

2 of your required hours must be a state approved “Prevention of Medical Errors” class, and 1 of your required hours must be a state approved “Bloodborne Pathogens” class.

These 3 required hours can be completed using home study, and can be obtained through any program that is approved for any profession that is regulated under the Dept. of Health. (that means that your cosmetology AIDS course will *not* count for electrolysis renewal. Cosmetology is not regulated under the dept. of health).
